Ladder Ball

Completely Customizable Designs!

Product Description:

Each ladder has three rungs, each rung scoring a different point value. One common method of scoring is to have the rungs be one, two and three points. In one variety the top is worth 1, middle is 2, and bottom is 3. Points are tallied at the end of each round, after all teams have thrown their bolas. The bolas suspended on the ladder score the points for that rung, often with the goal of getting at least 21 points to win. Carrying case included!

Lawn Pong

Product Description:

If you've ever been to a top-rated arcade with virtual pong or have simply ever thrown a ping pong ball into a cup, you know what lawn pong is. The game comes with 12 buckets (6 per team) with 4 white throwing balls. Each bucket is imprinted on the face of the bucket with CMYK vinyl imprinting. Fill them with water or sand at your level of preference for extra stability. To play, there will be 2 teams (traditionally 2 people per team) with 6 buckets per side in a triangle formation. The triangles should be approximately 15-25 ft apart. Each player attempts to throw 2 balls at the opposing team's buckets, and if a ball lands in a bucket, it is removed from play. The other team then takes their turn. Each team is allowed one "re-rack" per game. The game has been won once all buckets have been removed by the opposing team.

Decoration Method: 4 Color Print max imprint on face of giant gray cups.
